## **Parental Separation/Divorce Policy**

**We believe that divorce, separation and custody agreements should not interfere with your child/children medical care. The parent requesting the visit is responsible of any copays or deductibles related to that appointment.**

**Joint custody means that each parent has equal access to the child's medical record. Without a court order, we will NOT prevent either parent from accessing their child's chart or obtaining their test results. We count on co-parents to communicate with each other the relevant medical recommendations and specific treatments, if any. We will not call the other parent for consent prior to treatment.**

**Should issues between the co-parents become disruptive to our ability to provide care to your child, we reserve the right to dismiss the family and recommend a different provider.**
